

"Feel the power of training your brain!"

How you can train Logic & Reasoning

Here is a game you can do at home or school to train the logic & reasoning skills of your child or student. For each pattern below, try to speed up with each response.

Activity

These pattern procedures can help develop logic and reasoning skills. Ask your child or student to list the next three blocks in the pattern.

1. red, red, blue, blue, yellow, yellow, green, green, red, _____, _____, _____
2. red, blue, yellow, red, red, blue, blue, yellow, yellow, _____, _____, _____
3. green, red, red, blue, blue, blue, yellow, _____, _____, _____
4. red, red, red, red, red, red, blue, blue, blue, blue, blue, green, _____, _____, _____

Add difficulty level 1: After trying these patterns, get creative and make up more on your own and test each other.
